

Margulies Perruzzi Architects Completes Office Design for Best Doctors, Inc.

BOSTON, Mass. – May 2, 2011 – [Margulies Perruzzi Architects](#), one of Boston’s most innovative architectural and interior design firms, today announced that it has completed the design of new office space for Best Doctors, Inc., the global leader in clinical advocacy solutions ensuring that individuals have the right diagnosis and the right treatment. Founded in 1989 by two Harvard Medical School professors, Best Doctors serves more than 260 insurers, employers and health plans, touching 25 million lives in 40 countries.

Located on two floors at 100 Federal Street in Boston, Margulies Perruzzi Architects (MPA) provided interior design services for the 54,000 square foot project. MPA maintained much of the existing design while creating a new executive office suite with finishes that harmonize with the rest of the interiors. The offices in the executive suite feature light maple wood furniture and conference tables, with a variety of traditional boardroom seating and modern casual chairs. To further personalize the space for Best Doctors, local artist Sarah Egan painted a wall in the firm’s reception area, creating a piece with tonal color and plaster paint.

Relocating its corporate headquarters from One Boston Place, Best Doctors required larger space to accommodate the company’s current and long-term growth. MPA previously provided programming and feasibility analyses for a series of potential new locations in Boston and conducted several test fits to compare building efficiencies in spaces of approximately 50,000 square feet.

Commodore Builders was the general contractor for the project, and RDK Engineers provided mechanical, electrical and plumbing engineering. Cushman & Wakefield was the tenant broker and project manager for the project.

About Margulies Perruzzi Architects

Consistently ranked as one of Boston's top architectural and interior design firms, Margulies Perruzzi Architects creates buildings and corporate interiors for clients who value design. The firm services the corporate, professional services, healthcare, research/lab, and real estate communities with a focus on sustainable design.
