

Margulies Perruzzi Architects Selected by Pioneer Investments for Office Design and Renovation

BOSTON, Mass. – June 22, 2011 – [Margulies Perruzzi Architects](#), one of Boston's most innovative architectural and interior design firms, today announced that it has been selected to provide space planning and interior design services for 100,000 square feet of office space for Pioneer Investments, a leading innovator in the global investment management industry.

Margulies Perruzzi Architects (MPA) will substantially update the office design and additional support space consisting of five floors at Pioneer's Boston office located at 60 State Street. The project includes providing a master plan to help Pioneer strategize how to best utilize this space on a long-term basis. These renovations are part of Pioneer's recent lease renewal at 60 State Street.

The project scope includes redesigned workspaces, conference rooms, lobbies, reception areas, finishes, furniture, and lighting. A major reconfiguration of Pioneer's IT/mission critical spaces is planned. A conference center featuring a suite of conference rooms with a large breakout area will also be added. In order to allow Pioneer's operations to continue during construction, MPA will phase the renovation schedule and utilize available swing space.

A client of MPA's for over ten years, Pioneer hired MPA to design its offices when it originally expanded beyond the 60 State Street building in 2000, and has since worked with MPA on numerous renovations within 60 State. Renovations for this project are expected to be completed by March 2012.
