Childcare Ctr at U Mass Med Ctr RDK Teams up with DW Arthur and Bond Brothers

Worcester, Ma - RDK Engineers joined forces with architects DW Arthur Associates and Bond Brothers to create a brand new Childcare Center at the UMass Worcester Medical Center.

The newly renovated 12,000sf facility was designed and built with an incredible amount of forethought and planning, resulting in the ideal place for children and their caregivers to spend their days.

Features such as radiant heat in the ceilings to heat the floors and "daycare-height" plumbing that is easily accessible to children are part of what makes the daycare center not only practical but inviting. The natural light wells and open spaces for play add to the

warm and welcoming environment.

The new center also has several infant, toddler and preschool classrooms, an administrative area, full kitchen, staff break room, storage room, teachers' lounge, conference rooms for parent/teacher meetings and a designated activity area.

IFMA Honors Marc Margulies

Boston - Margulies Perruzzi Architects announced that principal Marc Margulies, AIA, LEED AP was honored with the President's Award by the Boston chapter of the International Facility Management Association (IFMA), a non-profit association dedicated to serving the facility management profession

The IFMA Boston President's Award is given to a chapter member for his or her leadership and example to the facility management industry as a whole.

Margulies, and several contacts who saw the need among themselves and their peers for a local facilities management association, formed the IFMA Boston chapter in 1985.

Margulies soon became the chapter's first president and held the position for two-and-a-half years.

He started his own firm, Margulies Perruzzi Architects (formerly Margulies & Associates) in 1988, and credits IFMA Boston and his circle of contacts with pro-

viding all of his firm's clients for its first five years in business.

The annual IFMA Boston Golf Tournament was launched by Margulies employees in 1990, and the firm's marketing staff submitted the chapter's first winning "IFMA Chapter of the Year" submission.

Build Boston

Continued from previous page

It features The Academy of Architecture for Justice (AAJ) to promote excellence in the design of justice facilities. The Seventh International Conference on Justice Design focuses on effective project delivery and management, team building, fiscal management, communications skills, and cutting-edge design issues for architects who provide the diversified services associated with justice architecture.

The AIA New England participates

in both exclusive AIANE meetings and lively Build Boston sessions.

The conference will be brought to a close with the AIANE Design Awards reception and dinner on the final night. These awards recognize excellent projects designed by New England firms or built in New England.

Visit www.buildboston.com to register online, use for free tickets to the exhibit hall, and see the most current information about this year's workshops and events. To receive free tickets to the exhibit hall courtesy *High-Profile Monthly* use promotional code 10BB-284.
