

Margulies Perruzzi Architects Completes Office Design and Renovation for Linedata

BOSTON, Mass. – November 16, 2010 – Margulies Perruzzi Architects, one of Boston's most innovative architectural and interior design firms, today announced that it has completed the design and renovation of 22,000 square feet of existing office space for Linedata, a global solutions provider dedicated to the investment management and credit community.

After looking at new office space in Boston, Linedata decided to stay at its current location at 260 Franklin Street. Margulies Perruzzi Architects transformed the office design while Linedata continued to occupy the space, constructing the project in phases to accommodate Linedata's business continuity. The project scope includes new workstations, furniture, finishes, and lighting, as well as boardroom upgrades and the addition of a videoconferencing room.

Fort Point Project Management provided project management services, and Vanderweil Engineers provided mechanical, electrical and plumbing engineering. The project was built by Structuretone.

About Margulies Perruzzi Architects

Consistently ranked as one of Boston's top architectural and interior design firms, Margulies Perruzzi Architects creates buildings and corporate interiors for clients who value design. The firm services the corporate, professional services, healthcare, research/lab, and real estate communities with a focus on sustainable design.
