Perruzzi Judge for EEA

Daniel Perruzzi, Jr., AIA of Margulies & Associates served as a judge for the 2007 Engineering Excellence Awards.

As a current member of the board of directors at the Boston Society of Architects, Perruzzi represented the BSA and the Boston architectural society as a whole along with the other judges in evaluating EEA submissions and selecting the winners.

"I was honored to serve as the architectural judge for the Engineering Excellence Awards," said Perruzzi. "Engineering and architecture go hand-in-hand, and sharing new ideas and practices allows us to continually improve our professional practices."
