

Margulies & Assoc. and Consigli Const. complete 10,000 s/f N.E. Scope

Margulies & Associates and Consigli Construction Co., Inc. have completed the New England Scope, a new 10,000 s/f facility. A ribbon-cutting and open house was held at 630 Plantation St., to commemorate the completion of the project.

A wholly owned subsidiary of Fallon Clinic, the largest multi-specialty group healthcare practice in Central Mass., New England Scope will provide outpatient endoscopic services, and was designed by architectural and interior design firm Margulies & Associates and construction manager Consigli Construction Co., Inc. The facility features four procedure rooms with recovery areas, patient prep areas, waiting areas, and exam and consult rooms.

"The team of Margulies & Associates and Consigli Construction has delivered a state-of-the-art medical facility of which we can all be proud," said John Duggan, director of facility services at Fallon Clinic. "The facility was designed interactively with direct input from our medical staff, and the construction was completed within a sensitive medical environment. Margulies and Consigli drew on their extensive experience for our New England Scope project, and we couldn't be more pleased with the results."

R.W. Sullivan provided the design for the mechanical, electrical, plumbing and medical gas systems for the project.
