

**Margulies & Associates Announces Two LEED® Accredited Professionals**

**BOSTON, Mass. – December 4, 2006** – Margulies & Associates, one of Boston’s most innovative architectural and interior design firms, is proud to announce that Associates Christine Law and Monica Moreira recently achieved recognition as Leadership in Energy and Environmental Design (LEED®) Accredited Professionals. A member of the U.S. Green Building Council (USGBC), Margulies & Associates is currently working on two projects seeking LEED certification.

With over 11 years of experience, Law is responsible for design team coordination, contract documents, and project detail information including design, space planning and construction administration. Law is currently working on two projects for Massachusetts General Hospital, including the relocation of emergency department offices and training space into two separate buildings. Law holds a Bachelor of Architecture and a B.A. in Fine Arts from the Rhode Island School of Design.

With over 12 years of experience as a project architect, project manager and detail designer, Moreira is currently project manager for the architectural design and interior fit-out of new 325,000 sf customer service center for Blue Cross Blue Shield of Massachusetts. Moreira holds a Bachelor of Architecture from the Wentworth Institute of Technology and currently serves on the Board of Directors of the Boston Chapter of the International Facilities Management Association (IFMA).

“Clients today are more aware of the benefits of sustainable design, which include a better workplace for their employees and a lower impact on the environment,” said Janet Morra, AIA,

LEED AP, principal of Margulies & Associates. “We are proud to add Christine and Monica to our growing team of LEED Accredited Professionals.”

The LEED Green Building Rating System is designed to encourage energy and resource conservation in the construction and operation of buildings. LEED Accredited Professionals (LEED APs) support and encourage integrated design and help project teams streamline the LEED application and certification process. The LEED AP program was designed to recognize individuals who have demonstrated the skills and expertise necessary to participate in the green building design process.
